

An introduction to

Benefits Connect™

Streamline Benefits Administration
with **JAT Consulting**

Simplify. Automate. Ensure Accuracy.

Benefits Connect™ from JAT Consulting simplifies benefits administration by securely transferring employee and enrollment data directly to benefit carriers—reducing manual work while improving accuracy and efficiency.

By automating the flow of employee benefits data from your HR system, **Benefits Connect™** eliminates manual errors, accelerates carrier reporting, and centralizes data management.

How it Works

Automated Carrier Reporting

Eliminate errors and speed up processing while keeping all employee data in one central system.

Life Event Ready

Easily Tracks and report changes in dependent coverage for accurate, timely carrier submissions.

Scheduled Reporting

Built-in schedular further enhances accuracy by automatically initiating carrier reports.

One Solution. Complete Benefits Management

Accurate, timely, and fully automated reporting.

Flexible File Support

EDI 834 &
custom format
compatibility

Easy Configuration & Carrier Reporting

Intuitive point-and-click
technology to define carrier
requirements
